

CAPSTONE ONLINE PRESENTATION

Notes & Guiding Questions to consider when presenting.

Your online presentation will be done with 2-3 other students as well as your Capstone teacher. The presentation will be a conversational style presentation lasting 5-10 minutes (no more than 10), supported by on-hand visuals from the project (a digital presentation like PowerPoint is not required) where the presenter will discuss three key components:

1) **INSPIRATION** for the project focus - what led you to your topic and how did you settle on/refine your essential question?

2) **PROCESS** - what materials, information, etc. did you need? who did you seek support from? what challenges did you face and how did you overcome them?

3) **LEARNINGS** - what new skills did you learn or further develop? any personal gains or contributions to community?
